Introduction

CES Consulting Engineers Salzgitter GmbH is an independent consulting engineering company with worldwide experience based in Braunschweig, Germany. CES offers solutions to complex multidisciplinary engineering tasks for all civil engineering and related sectors. CES renders services ranging from preliminary investigations to construction supervision and cost controlling, training of the clients' staff, advisory services in the operation and maintenance of installations, as well as the organization and strengthening of public authorities and institutions. CES works mainly in the field of development cooperation and implements infrastructure projects for national high-end clients (ministries and line authorities) funded by international donors.

Project Description

Consulting Services for implementation of investment measures of the project **Wastewater Disposal in Provincial Towns, Programme South** covered originally in its phase I three cities in the Mekong Delta region namely: Can Tho, Soc Trang and Tra Vinh being focused the investment measures on consolidation, optimization, rehabilitation and extension of the existing sewer system and its components and the construction of a wastewater treatment plant with biological stage (Can Tho) and with a preliminary treatment (Soc Trang and Tra Vinh).

Presently, Consulting Services in Can Tho and Soc Trang Phase I are completed and it is expected that implementation of investment measures in Tra Vinh (TV PhI), especially wastewater treatment facilities, are taken over the third quarter of 2019. The implementation of investment measures for phase II in the city of Soc Trang (ST PhII) started second quarter of 2018 with the sewerage component (3 Lots) and from February 2019 onwards with extension of wastewater pre-treatment plant with a biological stage composed of trickling filters.

Project offices are established in Tra Vinh and in Soc Trang. Project team is composed from experienced Vietnamese Engineers and professionals working for CES for long time. CES has a Legal Representative based in the city of Can Tho. Start of the assignment in the project will be July 2019. 2 weeks are scheduled as transition time between actual PM and the applicant.

Job Description

The candidate will replace the actual international Programme Manager (PM) who will leave the project. The primary role of the international Project/Programme Manager is on the one hand to provide counsel, guidance and support to the 2 Clients (PMUs or PEAs in Soc Trang and Tra Vinh) and on the other hand to ensure that CES interests in financial and quality standards terms are under control and well represented during the entire programme duration. The applicant will assume the role of the Engineer according to FIDIC CoC for activities related with site supervision, contract and claim management, quality assurance and control, quantity measurements, progress and cost control, observance by Contractor of occupational safety and health (OHS) & environment standards, reporting, etc.

The applicant has to commute weekly between the two mentioned cities. As the replacement will occur short before Taking Over commuting between the cities will be limited to a couple of weeks up to the moment TOC was issued. It will be his contractual obligation to supervise and inspect the performance of the WWTP in Tra Vinh 12 Months during DNP.

Qualification and Experience:

Civil Engineer with at least 15 years of proven professional experience as Team Leader / Programme Manager in Construction Supervision under Fidic CoC Red, Pink and Yellow and in KfW funded projects are prerequisite. English is contract language. Working experience in Asian countries, especially Vietnam, experience on design WWTP, storm water drainage are considered an asset.

Interested applicants are required to send a complete CV (English, EU standard) and a cover letter to jobs@ces.de

Please indicate the job reference "**Application for: Chief Resident Engineer, No.0800**" in the subject line.
