Brief Project Description

The Federal Republic of Germany via Kreditanstalt für Wiederaufbau is financing the Phase II of the Health Sector Programme II in the provinces in the North-West (Wum), South-West (Manyemen, Ndoungue) and in the coastal region (Edea) of Cameroon.

The program comprises the complete rehabilitation of the District Hospital in Wum and of six health care centres in the provinces North-West and South-West, the partly rehabilitation of two denominational hospitals in Manyemen and Ndoungue and the new construction of a hospital in Edea.

The site selection was made in close collaboration with the Ministry of Public Health and the regional services of GTZ. The hospitals and health care centres will receive the following equipment: hospital furniture, laboratories, operation theatres, X-ray equipment, autoclaves, refrigerators etc.

The number of beds of the new hospital in Edea will be 70 with the possibility of extension for 20 additional beds. After the rehabilitation of the hospital in Wum the number of beds will be 70. The surface ground of rehabilitation and new construction is 13.100 m².

District Hospital Edea (former maternity)
